EDUCATION

B.Tech
Vardhaman college of engineering, Hyderabad
08/2019 - 04/2023   8.31 CGPA

Intermediate
Sri Chaitanya Jr. College
07/2017 - 05/2019   10 CGPA

SSC
B V Bhavan's Res Public School
07/2016 - 05/2017   10 CGPA

PROJECTS

Traffic Sign Recognition using CNN (11/2022 - 03/2023)
- Published a paper "German Traffic Sign Recognition Using Convolutional Neural Network" in IEEE.
- The main idea of this project is to detect and classify traffic sign boards on the road. By leveraging deep learning, CNNs accurately identify and interpret various traffic signs, enhancing driver awareness and preventing accidents.

Electricity Generation Using Floor Tiles (07/2021 - 09/2021)
- Electricity generation through floor tiles harness kinetic energy from footsteps, converting it into electrical power.
- When integrated into public spaces, like malls or sidewalks, these tiles generate clean energy simply from people walking, contributing to green energy initiatives and reducing reliance on traditional power sources.

ADDITIONAL COURSES

Machine Learning
Internshala
07/2022 - 09/2022

EVENTS ATTENDED

IEEE SPS FORUM (03/2022 - 03/2022)

CERTIFICATIONS

System Design through Verilog (07/2021 - 09/2021)
secured 69%

Databases and SQL for Data Science with Python (08/2023 - 09/2023)
By IBM (coursera platform)

SQL for Data Science (10/2023 - 10/2023)
By UC Davis (coursera platform)

SQL Basic & Intermediate- HackerRank
